Tie-Breaker

If schools are tied in enrollment for the last position or positions of a class, the following tie-breaker will be applied:

- 1. The first tie-breaker will be a three-year average of enrollment which includes the year on which the current year's classification is based and the two previous years. The higher three-year average will be in the larger class.*
- 2. If the tie still exists, then the school with the higher immediate previous year's enrollment will be placed in the larger class.*
- 3. If a tie still exists, it will be decided by a coin flip in the NSAA office.*

Updated 6/25/15
