# Highlighting selections in Adobe InDesign

1. Open the file in Adobe InDesign
2. Click on Swatches and select a colored outline box.
3. Select a stroke point size that will highlight your selection.

4. Select the rectangle tool and draw a box around the portion of your page that you wish to highlight.

5. Click save and name your file> save.
6. These can be converted into a PDF file and combined with files to create a single PDF for categories that require multiple selections.
